MATERNITY CARE MANAGEMENT - PROGENYHEALTH

Your Patients Could Benefit from a Free Maternity Care Management Program

We are excited to introduce the ProgenyHealth® Maternity Care Management program – an innovative program designed to support your patients and ease your workload. The program is delivered by Community Health Choice for their members. The Maternity Care Management program supports patients before, during and after their pregnancy with the support of experienced Maternity Case Managers... **at no additional cost to your or your patients.**

The program includes:

- **Case Management** – Member support from a Maternity Case Manager in collaboration with OB/GYNs via personalized care plans – from pregnancy through the first eight months postpartum
- **Mobile App** – Reproductive health support from cycle tracking and conception to pregnancy and parenthood through the app
- **Return to Work** – Helping women transition back to the workplace if they choose and navigate job issues, childcare, and more
- **Intelligent Platform** – A comprehensive medical record that drives all interventions and care pathways based on evidence-based protocols and maternal risk factors

To refer a patient, click [here](#). Learn more about the program [here](#) and download an easy-to-understand overview of the program for your patients. The patient flyer also includes simple instructions for downloading a mobile app.

To learn more about ProgenyHealth's programs and services or if you'd prefer to enroll your patient by phone, please call **1-855-231-4730** from Monday-Friday between 8:30 AM-5:00 PM ET.

Thank you for your partnership in caring for Community Health Choice members.
