INGREZZA DRUG COVERAGE CHANGES

BACKGROUND

VDP included three Ingrezza NDCs on the daily MCO formulary file delivered on Nov. 21, 2024, in error, with coverage effective dates of Oct. 23, 2024, and MD coverage of Oct. 23, 2024. These NDCs are not covered by Medicaid or CHIP formularies and do not have Medicare Part D wrap-around services (MD) coverage. The NDCs were not correctly removed from formulary coverage and excluded in the MCO formulary files delivered on Dec. 6, 2024.

KEY DETAILS

VDP will add Medicaid and CHIP formulary coverage with MD coverage to the following NDCs with a coverage effective date of Oct. 23, 2024, and a coverage term end date of Dec. 20, 2024. This action will better coordinate the coverage error across Medicaid and allow MCOs sufficient time to make the necessary system changes to remove coverage.

These changes will appear in the ACSPTFF34724 and ACSPDEL34724 files delivered on Dec. 12, 2024.

Medicaid and CHIP Coverage: ACSPTFF34724 File

NDC	Program	Effective Date	Term Date
70370404001, 70370406001, 70370408001	V, P	10/23/2024	12/20/2024

Medicaid and CHIP Drug Exception List Coverage: ACSPDEL34724 File

NDC	Program	Exception Code	Effective Date	Term Date
70370404001 70370406001 70370408001	V, P	MD	10/23/2024	12/20/2024

V= Medicaid, P=CHIP

In the future, VDP will aim to avoid these types of coverage errors and continue to notify MCOs of any data file corrections in a timely manner.
