CLINICIAN ADMINISTERED DRUGS - SITE OF CARE MRG UPDATE EFFECTIVE AUGUST 1, 2025

SUMMARY OF NOTIFICATION

Below are upcoming updates to medication prior authorization criteria for Community Health Choice. This is applicable to the **Marketplace and D-SNP** lines of business.

On August 1, 2025, we will be implementing an updated version of the clinician administered drugs – site of care medical review guideline.

The clinician administered drugs – site of care medical review guideline will now include codes that are applicable to pembrolizumab and nivolumab.

KEY DETAILS

For the Clinician Administered Drugs - Site of Care Medical Review guideline, you can view the updates on our [Community Provider Website](#) under the “Prior Authorization Requests: Essential Information & Supporting Clinical Documentation” section.
