**COMMUNITY IS CHANGING ITS PROVIDER ONBOARDING PROCESS -
EFFECTIVE FEBRUARY 4, 2026**

SUMMARY OF NOTIFICATION

Community is excited to introduce a new process effective February 4, 2026.

We are enhancing our Providers Contracting Process through the implementation of Salesforce. This new system will streamline how providers submit their contracting information to join the network through our Community Webpage.

Moving forward, providers will be able to access a self-service portal where they can easily:

- Submit requests to join our network
- Add new providers to existing groups

This enhancement will allow you to enter your information directly into the portal for more efficient processing.

Thank you for your collaboration and support as we continue to improve our systems and Provider experience. Please reach out to our Provider Performance Management team at ProviderRelationsInquiries@CommunityHealthChoice.org if you have additional questions regarding this notice.
